

## Correction to Stepwise Orthogonal Click Chemistry toward Fabrication of Paclitaxel/Galactose Functionalized Fluorescent Nanoparticles for HepG2 Cell Targeting and Delivery

Chian-Hui Lai, Tsung-Che Chang, Yung-Jen Chuang, Der-Lii Tzou, and Chun-Cheng Lin\*  
*Bioconjugate Chem.* **2013**, *24*, 1698–1709. DOI: 10.1021/bc400219t

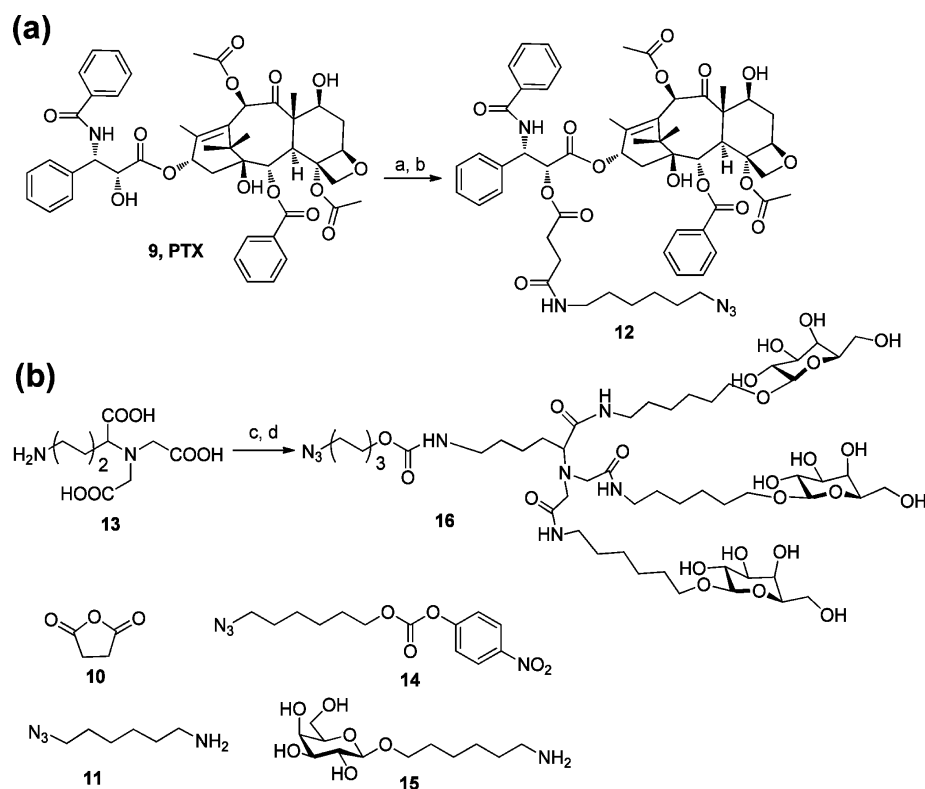

### Stepwise Orthogonal Click Chemistry

The authors regret some errors in this article. All the D-galactose structures in abstract and Schemes 2–4 should

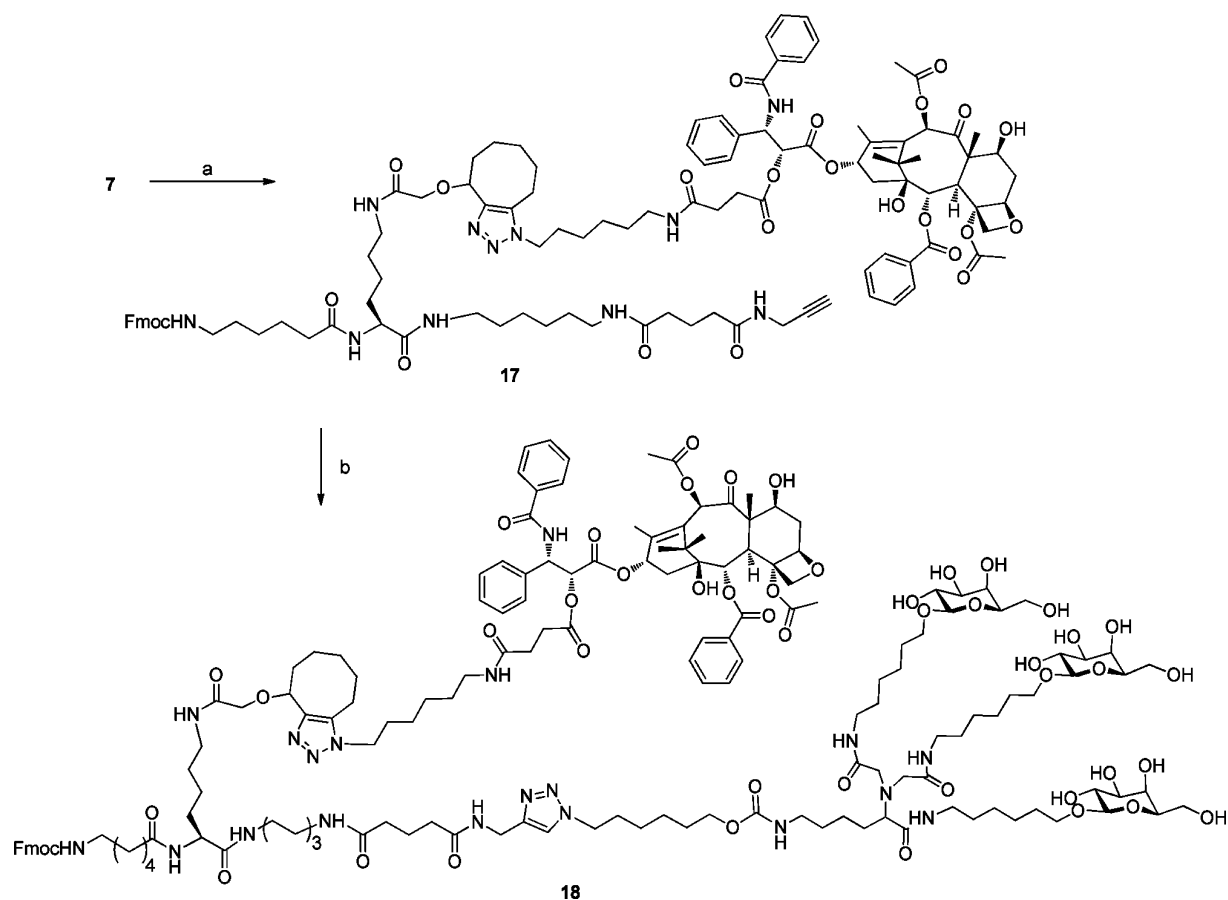

be corrected. The correct structures in abstract and schemes are given below.

Scheme 2. Synthesis of 12 and 16

Published: December 4, 2013

Scheme 3. Stepwise Synthesis of Compound 20 in the Solution Model Study

Scheme 4
